TEST CERTIFICATE

Industrial Mecanicas Lago S.AU Manufacture of all pump series Big Discovery declares that:

All pump series Big discovery, before being packed for shipment, go through a real operation test in our factory, with water circulation. During the test, several variations are carried out in the return conduct so that each pump work at different points of pressure, among them: return with total opening (maximum flow) ,total closing (maximum pressure) and working point(approx 10m head)

During the test, the following checks are being done:

- * Lack of water leaks in the different possible areas
- * Delivery of correct hydraulic flow according to model
- * Correct electrical consumption of the motor according to model
- * Lack of abnormal noises

All the Guarantees that the pump function correctly once it is manufactured.
